

Keto Diet Food List

Intro to Therapeutic Carbohydrate Reduction

Society of Metabolic
Health Practitioners

Main Principles of a Low Carbohydrate Ketogenic Diet

Eat only when hungry. Eat until you are full. **Goal: <20g TOTAL carbohydrates/ day.** This is one example of a prescription strength ketogenic diet. Talk to your provider before starting the diet.

>20g

Low Carb Foods (limited amounts per day)

These foods are low in carbs but can be overeaten and may hinder your metabolic health journey.

- Cheese: hard, aged cheeses such as swiss, cheddar, brie, camembert, bleu, mozzarella, gruyere, cream cheese, goat cheese. *Be sure to check the carbohydrate count.*
- Creams and oils: butter, half & half, whipping, light, or sour cream
- Mayonnaise
- Olives
- Avocado
- Lemon/ lime juice
- Soy Sauces
- Pickles

Leafy Greens (limited amounts per day)

Difficult to overeat, but still has carbs. Reassess amount if not meeting goals.

- Includes: arugula, bok choy, cabbage (all varieties), chard, chives, endive, greens (all varieties including beet greens, collards, mustard, and turnip), kale, lettuce (all varieties), parsley, spinach, radicchio, radishes, scallions, and watercress. *If it is a leaf, you can eat it*

Non-Starchy Vegetables (limited amounts per day)

These have more carbs than leafy greens. Reassess amount if not meeting goals.

- Includes: artichokes, asparagus, broccoli, brussels sprouts, cauliflower, celery, cucumber, eggplant, green beans, jicama, leeks, mushrooms, okra, onions, peppers, pumpkin, rhubarb, shallots, snow peas, sprouts, sugar-snap peas, summer squash, tomatoes, zucchini

1-10g

Zero Carb Foods (unlimited)

Eat these zero-carb, nutrient rich foods until you are satisfied.

- Meat: Beef, pork, ham, bacon, lamb, veal, sausage, pepperoni, hot dogs, other meats
- Poultry: Chicken, turkey, duck, other fowl
- Fish & Shellfish: Tuna, salmon, catfish, bass, trout, other fish, shrimp, scallops, crab, lobster
- Eggs (fried, scrambled, deviled, etc)

Zero Carb Alternatives (sparingly)

Use these foods sparingly as replacements for high-carb snacking.

- Zero carb snacks: Sugar-free jello, pork rinds, pepperoni slices, ham, turkey, beef jerky
- Drinks: Diet sodas, diet iced tea, sugar-free drink mixes, sparkling water, water, coffee
- Natural/ Artificial sweeteners: Ask your provider. If acceptable, natural allulose may be preferred.
